6th May 2020

Dear Parent/Guardian

Following the recent announcement from the Minister Mc Hugh on revised arrangements for Junior Cycle 2020, our staff are engaged in a process to decide a whole school approach to assessing our Junior Cycle students for 2020.

Teachers in each subject area are communicating this directly with students through Google Classroom. We will collate this data and send it to all parents by the beginning of next week and also post it on our website.

Teachers will use their professional judgement to award a descriptor to each student in their subject area. This descriptor will reflect students' work over 3 years, comprising class performance, homework, assessments, project work, CBAs where appropriate and class engagement up to May 25th. We are cognisant that our students have experienced great disruption to their learning since March 12th and all staff are using varying methods to ensure equity and fairness to all.

We will issue a report in June to reflect all of this and the Department of Education will also issue each student with a certificate at the beginning of next academic year.

I hope this gives some clarity to you all in a very difficult situation. I will forward a copy of the individual breakdown of each subject to you when departments have this finalised.

I wish all of our families well in this very challenging time and remind all third years to log to their weekly assembly each Friday at 12pm.

Kind regards

Fiona Temple
