**Your upgrade code:**

## XPVHNU

Studyclix Plus upgrade valid until 30/06/25

---

1. Go to [studyclix.ie](#) to create an account or sign in  
2. Enter your upgrade code on the homepage

Want to Boost your study?

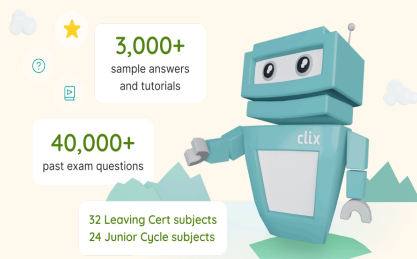

**Studyclix Boost** 

# Why Access Studyclix

## \*Exam Questions by Topic

- Each subject is broken down into topics.
- Each topic has past state and mock exam questions with the relevant marking scheme attached.
- This makes topic-focused study using past exam questions all the more manageable and efficient for students.

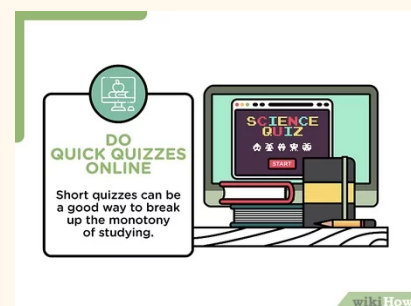

## \*Past Exam Papers

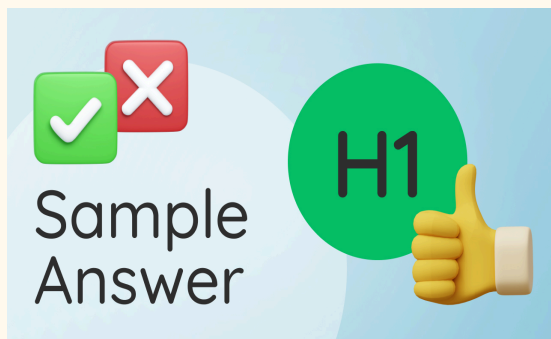

- Students have the option to access past exam questions by topic or the full past exam paper.
- Incorporating past exam papers into your child's study allows them to get familiar with the structure of the exam, the timings of each section and the type of topics that come up.

## \*Quizzes

- There's only so much reading one can do before facts, dates and important pieces of information stop sticking.
- Studyclix quizzes help test knowledge, are fun, quick and easy.
- All quizzes are created by subject experts.
- They are inspired by past exam paper questions.
- They are quick to go through.
- They turn studying into a fun game.
- Quizzes afford students a break from monotonous studying without breaking focus.

## \*Sample Answers

Sample answers explain where students lose and gain marks.

Sample Answers give students an invaluable insight into what examiners are looking for in their essays with advice on what to include and maybe more importantly, what not to write on exam day.

**For students who like audio help, some of the English Sample Answers are accompanied by English teachers verbally talking through and breaking down essays.**

## \*Flashcards

While studying can sometimes feel like a chore, there's no reason it can't be engaging and dare we say, fun.

With digital flashcards, students can test themselves on a topic's key terms and definitions.

**\*Solution**

## Videos

For maths-based subjects, practicing past questions and making your way through a solution is key to studying.

Solution videos are available across a range of questions in Maths, Accounting, Physics and Chemistry break down the solution step by step, guiding students through how to approach the question and helping them identify where they've gone wrong.

Below are the subjects that have solution videos:

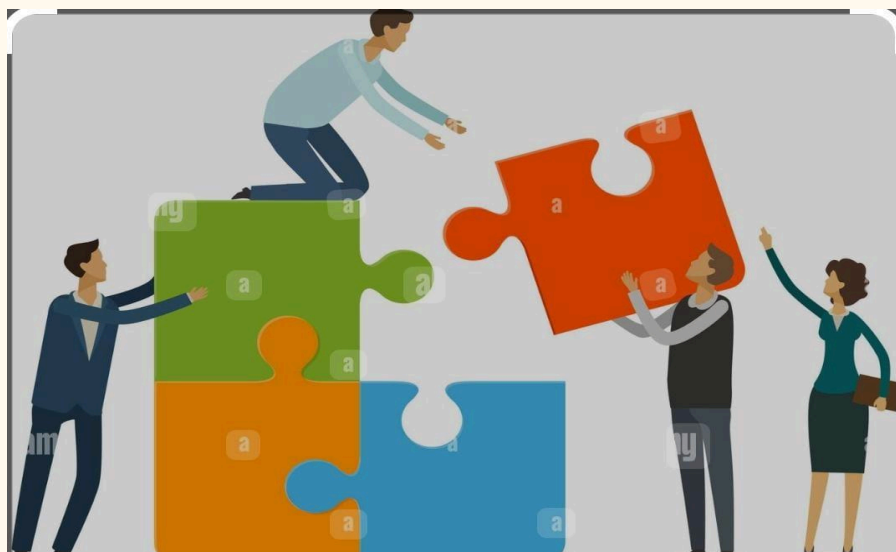

[Physics](#)

[Chemistry](#)

[Junior Cycle Maths](#)

[Leaving Cert Maths](#)

[Accounting](#)

**We all need help at times, help your child to study, help them to succeed.**
